

'Automotional Advanced Performance' Advanced Driver Training

INTRODUCTION

VENUE:	Donington Park Race Circuit, DE74 2RP
NO. OF TRAINEES:	Groups of 3
TRAINING DETAILS:	Automotional Driver Training 1/2 day & Skid Car, ERT & Parking/Manoeuvring
EVENT DURATION:	Full Day 09:00 - 16:30

DETAIL

The course proposed is a full day in duration and as well as a classroom based comprehensive briefing the day includes practical Automotional on road training, Skid Car, Emergency Reaction Training and Parking & Manoeuvring sessions.

On arrival participants will receive tea and coffee and then have the all-important safety & training briefing for the day, this is also an opportunity for the delegates to offer any specific concerns relating to their general driving or any of the course content.

Setting the scene for any training course is of paramount importance and this particular briefing will cover all of the elements

As with all Automotional practical training courses, this course includes a pre course Automotional Driver Profile (on-line ADP) and post training, a full course report will be e-mailed directly to the participant and course administrator as required.

This ensures that full H&S Duty of Care responsibilities are covered.

PRACTICAL TRAINING

AUTOMOTIONAL DRIVER TRAINING – Half Day

Following the briefing the course will commence with an eyesight and vehicle check. Our trainer will then take to the wheel to demonstrate many of the aspects covered in the briefing and to further set the scene. Following this the trainees will drive in rotation for the remainder of the session, covering the below;

- Developing the driver's expertise in managing the high risk environment of urban driving and reducing the likelihood of being involved in a preventable driving incident.
- Other road types will also be covered depending on the geographical location of the training session and the driver's personal needs.
- The coaching session will develop the perceptual skills outlined in the presentation and to provide ample opportunities to explore the principles of keeping space, identifying risk and keeping visible and communicating with other road users.

SKID CAR

The Skid Car is the perfect way to learn the causes of skids and indeed how to avoid them. The Skid Car, unlike the Skid Pan, can replicate a variety of road surfaces from wet through to black ice. All drivers will learn at their own pace under the watchful and experienced eye of our trainers, learning in a fun and safe environment. This is an invaluable life skill for all drivers and provides the knowledge to 'avoid' skids in the future.

EMERGENCY REACTION TRAINING (ERT)

This unique activity sees drivers learning how to deal with the 'unexpected' as they drive towards a set of horizontally placed traffic lights that, at the last moment instruct them to complete an emergency stop or avoid to the left or right. Our trainers work with each driver at their own pace starting slowly to build confidence and understanding of the vehicle's weight transfer under emergency situations. This exercise is also the perfect way to explain and demonstrate to drivers about the plethora of dynamic aids fitted to a modern motor car such as ABS, TCS, EBD, etc.

PARKING/MANOEUVRING

With 80% of crashes happening whilst parking and manoeuvring in confined spaces or 'damaged whilst parked' this element of the course is vitally important and potentially will finance the course in its own right! With the use of inflatable cars, high and low obstructions and by then making it competitive we try to replicate the real world scenario of modern day parking. Useful hints, tips and tricks of the trade are discussed and drivers learn in a fun environment.

SUGGESTED TIMETABLE – 3 Trainees

AM

09:00	Guest arrival at Donington Park, registration & sign-on, tea, coffee served for all guests.
09.15	Group safety & training briefing
09.45	Automotional On Road Training
13.00	Buffet Lunch
13.45	Skid Cause & Prevention Training Emergency Reaction Training Parking & Manoeuvring
16.00	Activities conclude, tea & coffee served for all guests – Debrief / Q&A
16.30	Trainees depart at leisure

COST

The cost of providing this training for 3 delegates, full day is £483.00 + Vat; equating to just £161.00 per trainee. This includes full use of the training suite, all training planning and management, activity venue hire, all activities as described including vehicles* & fully qualified and experienced staff.

*A suitably insured company vehicle for the On-Road training will need to be supplied by the company. We can supply on request at additional cost.

SUMMARY

Automotional Ltd is delighted to submit this proposal for your consideration and would be happy to discuss any element of it.

All the staff used by Automotional Ltd are hand-selected on the basis of their suitability & experience for such work from an 'elite' group of qualified instructors.

The training takes place at Donington Park Race Circuit, next to East Midlands Airport.
