

NFE013 Driver Training Vehicle Manoeuvring, Signalling & Safety Training

INTRODUCTION

VENUE:	Any suitable UK location
NO. OF TRAINEES:	4 per session
TRAINING DETAILS:	Banksman / Vehicle manoeuvring signalling & safety
EVENT DURATION:	1.5hr sessions – 4 trainees Minimum 2 sessions AM 09:00- 10:30 & 11:00- 12:30 <u>or</u> PM 13:00 – 14:30 & 15:00 – 16:30 Maximum 4 sessions All timing above

DETAIL

The course proposed is 1.5hrs in duration and begins with a briefing and objective setting session; this also provides the opportunity for delegates to offer any specific concerns relating to any of the course content.

Setting the scene for any training course is of paramount importance and this particular briefing will cover the reasons for the course which, in our experience, is normally as a result of or prevention of near misses, vehicle, site personnel and third party damage.

As with all our practical training courses a full course report will be e-mailed directly to the participant and course administrator as required and all training is recorded against the trainee's file.

This ensures that full H&S Duty of Care responsibilities are covered.

TRAINING

A course designed for any staff involved or asked to assist in the movement of vehicles, loading and unloading, covering health and safety and practical lessons on how to move a vehicle in a safe manner.

Aims and Objectives:

To equip delegates with the knowledge and skills to be able to carry out the safe movement of vehicles around their workplace.

SEMINAR CONTENT – 45 minutes

- The safe passage of reversing vehicles in confined spaces
- Identification of areas of danger within sites
- HSE and Road Transport Industry Training Board recommended code of signals
- This course will raise awareness of the dangers caused when reversing
- Learn practical techniques and hand signals to assist drivers in this manoeuvre

PRACTICAL TRAINING – 45 minutes

Trainees and trainer will carry out all practical learning from the above seminar and put into practice, in a controlled and safe environment all of the lessons learnt.

The trainer will give a short demonstration in order to illustrate the benefits and application of the recognised safe and clear signals including all H&S to trainees and in turn will ask the trainees to perform various manoeuvres, with group input.

- A suitable vehicle and manoeuvring area will be required to conduct this session.

WHO IS THIS FOR?

A course designed for any staff involved in the movement of vehicles, covering health and safety and practical lessons on how to move a vehicle in a safe manner.

AIMS & OBJECTIVES

To equip delegates with the knowledge and skills to be able to carry out the safe movement of vehicles around their workplace.

OUTCOME

A full and detailed report will be produced post training / assessment for the trainees and manager.
