Automotional Driver Training  
4X4 Off Road Driving Safety

## INTRODUCTION

TRAINING DATE:	TBC by Client
VENUE:	Donington Park Race Circuit, DE74 2RP
NO. OF TRAINEES:	2 per session, 2 AM & 2 PM
TRAINING DETAILS:	4X4 Off Road Training
EVENT DURATION:	3.5 hours

## DETAIL

The course proposed is a half day in duration and as well as a classroom based comprehensive briefing on Off Road driving also covers practical On Road 4x4 dynamics training and utilising our purpose built Off road course both Off & Soft Road training, including green lanes.

On arrival participants will receive tea and coffee and then have the all-important safety & training briefing for the day, this is also an opportunity for the delegates to offer any specific concerns relating to their general driving or any of the course content.

## PRACTICAL TRAINING

This course has been designed specifically for the 'at work' 4x4 driver.

The course covers the key aspects of driving Off Road, how to prepare the vehicle before going Off road and what to do before returning to the public highway. It also covers how a 4x4 vehicle can handle so differently from a standard car, particularly when heavily laden. This is explored in the safety of our Off Road course after firstly being taken on road.

Vehicle mechanics, country side codes, recovery & safety are also covered during this valuable training session.

The Off Road course at Donington Park has been specifically designed with a wide range of obstacles including ascents, descents, traverses, gravel tracks, grass ruts, mud roads and provides a challenging yet non-damaging test.
